

Could your office weather a data breach?

With Data Security services, your office can secure comprehensive coverage for the expenses incurred to respond to a breach and have experts standing ready to deliver the well-coordinated response you need to mitigate financial damages and protect your reputation.

What increases your exposure?

- Do you have employees?
- Do you keep employee records?
- Do you run credit checks?
- Do you require social security and/or Driver's License numbers to provide services?
- Do you offer credit and debit card payment options or other financing?
- Do you have computers, laptops, tablets, smart-phones, backup tapes/drives, copiers, and/or fax machines?

Did you answer YES to any of those questions? If so, you are at risk!

Being protected = Being prepared to respond.
